

ECO FILM & DISCUSSION SERIES

**Chatham Township Environmental Commission
&
Chatham Borough Green Initiatives**

HISTORY In 2009, the Chatham Township Environmental Commission (CTEC) developed its “Eco Film & Discussion Series.” CTEC’s Community Education & Outreach Committee invited Chatham Borough to join in the program. The first event in the Series took place on February 11, 2010, and since then the partnership--Township’s Environmental Commission and the Borough’s Green Initiatives Committee—has successfully hosted many Eco Film & Discussion events.

ABOUT THE SERIES: A free event, with free refreshments, we show an environmentally-related featured film, followed by a discussion with an experienced facilitator or a panel of subject experts. Additional free information on the subject--and other information on local environmental and sustainability programs and events--is made available at the event by Environmental Commissioners, Green Teams, and subject experts. Most of our showings are held at our local library.

For more info, email ctec@chathamtownship.org or visit our website <http://www.chathamtownship.org/CTEC/index.html>

WHAT’S NEXT: for information on our next event, please email steffenscindy@yahoo.com or ctec@chathamtownship.org
