

We're investing \$2 million in your neighborhood

Residents in Chatham Township count on us to provide safe, reliable water service. By constantly upgrading our infrastructure, we're planning to keep it that way. Think of it as your water bill at work – right in your own neighborhood.

WHAT: We're replacing approximately 5,500 feet of aging 6-inch main that was installed in the 1940s with new 12-inch ductile iron main.

WHERE: Lafayette Avenue (from Southern Blvd to Shunpike Road/ Watchung Avenue)

WHY: The pipeline project will improve water service reliability and increase water flows for household use and firefighting.

WHEN: Weather permitting, work is scheduled to begin after school hours on February 17 and, weather permitting, will complete the project in approximately two months. Work hours will be as follows:

- **Feb. 18 through Feb. 25:** Monday–Saturday, 7:30 a.m. until dusk.
- **Beginning Feb. 27:** Monday–Friday, 9 a.m.–2 p.m., when school is in session. Saturdays–7:30 a.m. until dusk.

Final street restoration will be completed in the fall of 2017.

WHO: New Jersey American Water's qualified contractor, Montana Construction
